

ONLINE TESTING

Get Instant Results! It's Simple!

Receive Instant Test Results and Feedback:

If you choose this online option, you do not have to use the paper Answer Sheet/Evaluation Form. You will receive immediate test results online with feedback, and we will be automatically notified to mail your certificate.

1. Go to www.ams4cme.com and click on "Testing Online" in the side menu bar.
2. Choose your course, and enter your password (located on the cover of this test), then click "LOGIN" and follow the testing instructions on your screen as prompted.
3. Upon test completion, click "Score Test" and you will instantly receive your test results. You must answer at least 70% of the questions correctly to receive **AMA PRA Category 1 Credits™**.
4. Print the scored test for your records and review incorrectly answered questions for the correct answers.
5. We will automatically receive an email of your pass/fail results and we will mail your certificate upon successful completion of the test. Do NOT fax or mail your answer sheet if you completed your test online.

That's it!

IMPORTANT NOTICE: Do not submit your completed test prior to the last day of your course completion date(s). If tests are submitted prior to your last day, your certificate will reflect the date your test was received ONLY, **No Exceptions**.

As an ACCME Accredited Provider, please note that:

- ! AMS, Inc. will **not** back-date certificates to reflect a date prior to you receiving the course materials or completing the course.
- ! AMS, Inc. will **not** issue a certificate reflecting your completion dates *prior* to your requested completion dates (nor will we post-date your certificate.)
